REGIONAL STRUCTURAL SUPPLY

COMPANY OVERVIEW

Anambra Best Door, operating under CFrank Enterprise, is an established building materials merchant and specialized joinery distributor based in Ogidi, Anambra State. Our commercial supply operations serve building contractors, structural developers, and private estate owners seeking reliable doors, precision-milled timber jambs, and architectural hardware across Nigeria.

CENTRALIZED LOGISTICS ADVANTAGE

Headquartered at Maraim Plaza within the Ogidi Building Materials Market, our location provides seamless distribution across southeastern commercial routes and direct freight connections nationwide.

WORKSHOP JOINERY PREP: CUSTOM TRIMMING, LOCK MORTISING, AND STRUCTURAL FRAMING AT OUR OGIDI FACILITY.

ENGINEERING BENCHMARK

HDF MATERIAL QUALITY

Our interior collection utilizes high-density fiberboard (HDF) engineered under hydraulic compression to provide dimensional stability far superior to conventional hollow cores. This uniform density resists swelling, surface checking, and humidity-induced warping common to regional tropical climates.

PERFORMANCE ADVANTAGES

- Acoustic Dampening: Solid composite mass reduces sound transmission between rooms.
- Factory Surface Sealing: Pre-finished scratch-resistant face veneers require zero on-site painting.
- Pre-Machined Pockets: Precise factory mortises accept standard commercial locksets and hinges.

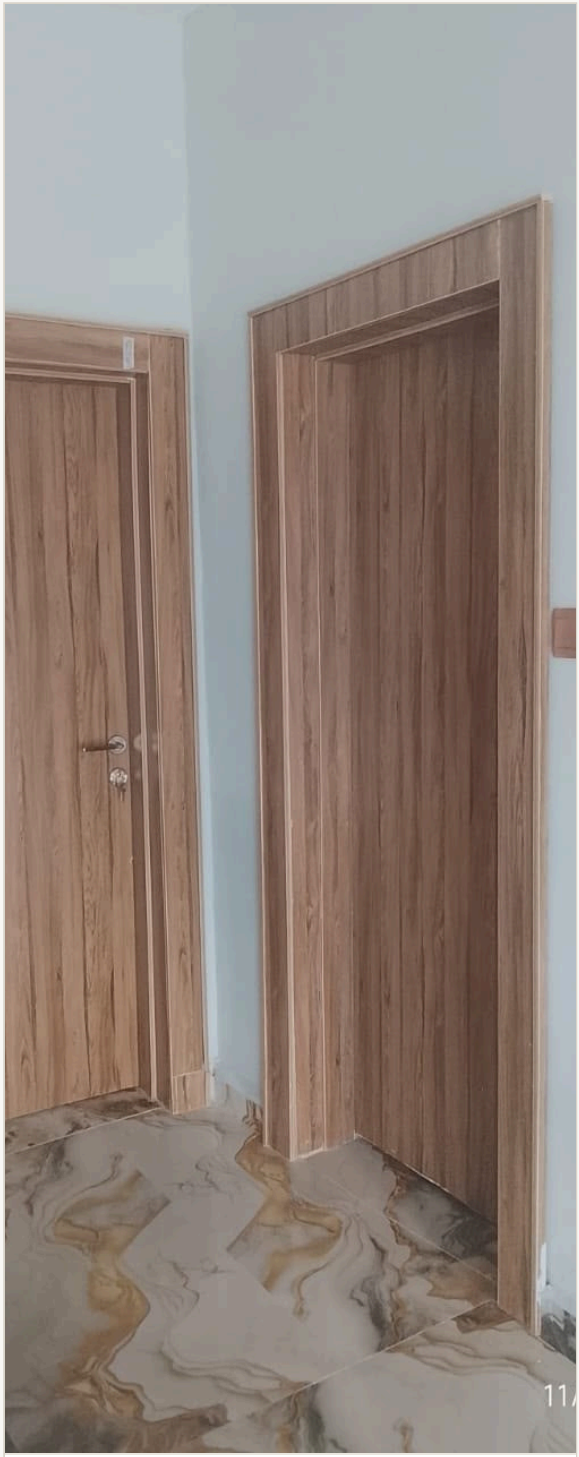

RESIDENTIAL & SUITE DOORS

INTERIOR PROFILES

From sleek linear inlays to multi-panel classical reliefs, our interior series integrates into contemporary residential apartments and professional offices. All units arrive pre-cut with matching architraves and frame components.

AMERICAN PANEL DOOR
Pressed woodgrain composite with recessed geometric panels. High impact resistance for heavy room traffic.

PRE-HUNG HDF SUITE
Pre-assembled with factory-matched architrave, rubber perimeter gaskets, and stainless architectural hinges.

PERIMETER DEFENSE

ARMORED SECURITY DOORS

External entrances demand uncompromising defense. Our heavy security line features multi-point perimeter vault mechanisms, anti-drill cylinder shields, and internal structural steel reinforcements engineered to resist forced entry.

BULLETPROOF SECURITY DOOR
Ballistic steel sub-frame with multi-directional locking bolts engaging top, bottom, and hinge jambs.

ISRAELI HIGH-SECURITY DOOR
Reinforced internal ribcage with anti-pry rebated leaf edges, double cylinder protection, and sound insulation.

ARCHITECTURAL STATEMENTS

SPECIALTY METAL & CAST

Designed for prominent building entrances, our specialty line utilizes embossed metal cladding and deep cast ornamental panels. Weatherproof lacquers protect against surface oxidation and intense sunlight exposure.

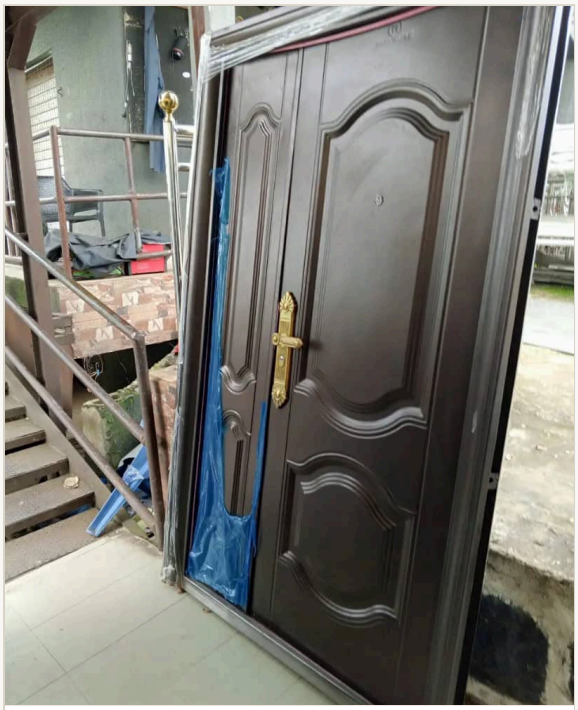

ITALIAN COPPER LUXURY DOOR
Hand-detailed architectural copper sheet over solid steel core. Protective sealant prevents atmospheric discoloration.

BIBLE DESIGN CAST DOOR
Heavy cast decorative exterior slab with reinforced locking pocket, suited for monumental residential entrances.

OVERSIZED ARCHITECTURAL OPENINGS

GRAND DIMENSIONS

4FT WATSON GRAND DOOR
Expansive 4-foot leaf width engineered for spacious foyer entries.

WATSON STANDARD ENTRY
Contemporary horizontal metallic inlay on rich timber grain.

JUIHUA 3FT HEAVY DUTY
Commercial grade entrance door with reinforced hinge plates.

FOREIGN INTERIOR LUXURY
Deep dark chocolate veneer with polished chrome strip lines.

PROJECT TAILORING

ON-DEMAND FABRICATION

When standard retail sizes do not fit your project's structural openings, our Ogidi workshop cuts and frames custom leaves, tailored architrave profiles, and specialized veneer grains to match your architectural schedule.

CONTRACTOR & DEVELOPER PARTNERSHIPS

We accommodate scheduled, multi-phase deliveries for hotels, residential estates, and commercial office developments. Custom mortise prep available for electronic hotel card locks.

DIRECT ORDERS & TECHNICAL PROCUREMENT

GET IN TOUCH

To place orders, request on-site measurement consultations, or discuss wholesale procurement for ongoing building projects, contact our sales and technical team directly.
